Paul & Leslie:

I am writing to request an extension on the submission of the M&RP updates for both the KUC Copperton Concentrator and Bingham Canyon Mine. As discussed several times, we are working on both these documents and had all intentions to submit an initial drafts by today, but the recent storm events, most notably the September 13, have consumed the resources needed to review the NOI updates. At this point we anticipate sending supplying initial drafts of both documents to the division before October 31, 2013. Please let me know if you have any questions or concerns. Thanks
